
Pharmaceutical Analytic Insight Manager

Scarsin Corporation, located in UXBRIDGE, Ontario, a 30 minute counter commute from Newmarket, Markham and Pickering is a **growth** company and we are currently seeking a **Full-Time Pharmaceutical Analytic Insight Manager** to join our team. We provide analytic and reporting services to global pharmaceutical leaders through our Integrated Insight Environment, a proprietary, enterprise class solution that simplifies our clients' complex world so that they may make better decisions.

As an analytic manager, you will possess 10 years of experience in **pharma analytics, brand management, forecasting and/or market research**. You will be familiar with all sources of industry data and you have the ability to quickly understand client analytic needs and produce outstanding analysis, conclusions and recommendations. You have great interpersonal skills and are able to present compelling stories to senior management. You have highly developed MSOffice skills and are technically savvy as you will become an expert in ScarDec, our proprietary analytic platform that utilizes **SQL and MSOffice tools** that deliver an integrated, user friendly experience to our multi-billion dollar client-partners in the pharmaceutical industry. You are completely confident that you will be able to make strong recommendations to Fortune 100 companies so that they may make better decisions on billion dollar business units.

As a team, we are experts in delivering true insights to our business partners by analyzing, reporting and forecasting business performance against large, independent data sets. If you are looking for a career in a fast paced, entrepreneurial environment and have the skill set detailed below, we invite you to send your resume to careers@scarsin.com. We wish to thank all applicants in advance for their interest in this position. However, only the candidates selected for interviews will be contacted.

Essential Functions and Responsibilities:

- Work with clients to understand reporting, analytic and forecasting development requirements
- Work with our developers to design and build ScarDec components to meet the above requirements in a proprietary system developed by Scarsin
- Work with Business Development to ensure that corporate objectives are met
- Develop client relationships that make you an indispensable member of their team
- Make your mark on the company by bringing your own ideas and recommendations to help improve existing business processes
- Manage members of the client service team
- Analyze data to ensure integrity of formulas, historical trends and relationships between variables in market share and other information
- Ensure that all deliverables meet the highest quality standards

Skills & Knowledge:

- 10 years experience in the Pharmaceutical industry in Market Analytics/Research and/or Portfolio/Product Management
- Intimate knowledge of Long Range Planning, Operational Planning, Forecasting etc.

-
- Exceptional analytic and logic capabilities
 - Superior math and statistical skills
 - Attention to detail is a must
 - Excellent verbal and written communication skills
 - Exceptional Excel & PowerPoint skills
